San Francisco, California | mail@ConradWade.com | 808-688-7848

## TECHNICAL PROGRAM DIRECTOR: **ONEDOME INC.** SAN FRANCISCO, 2018-2019

- Designed agile influenced Asana project management plan and lead adoption company-wide, resulting in higher productivity and accountability.
- Identified deficiencies in processes and proposed effective alternatives to remove blockers in a fast-changing environment.
- Created automation and system reporting dashboard using Node, Pagerduty, Nagios, Meraki and IFTTT for a diverse device ecosystem.
- Executed over 20 end-to-end immersive art technical programs, collaborating with over 50 artists and technicians.

## MANAGING DIRECTOR: **CHICLY INC.** SAN FRANCISCO, 2016-2018

- Implemented agile production
- Led well-defined engineering projects by serving as the crucial interface between business stakeholders, engineering, product, and design.
- Built technical, marketing, and customer support teams from the ground up to a team of 20.
- Developed IOS and PWA applications on-time and under-budget.

## PROGRAM MANAGER: **FEMTO.IO INC.** SAN FRANCISCO, 2012-2016

- Directed hardware engineering design discussions and steered solutions to align with market fit/expectations while hitting aggressive cost targets.
- Created 3D tracking prototyping microcontroller. Oversaw product development through the engineering process.
- Scaled manufacturing from a hand-made item to mass production.
- Served as Product Owner on the engineering Agile Scrum Team.

## PROGRAM MANAGER: **GOOGLE DEVELOPER GROUP** 2011-2015

- Developed project plans for 300+ participant engineering events
- Successfully ran over 30 projects with budgets often exceeding \$50,000 on Google's San Francisco and Mountain View campuses.
- Managed and grew membership from 0 to over 2,500 software developers.
- Built 75+ classrooms and taught classes on emerging Google Technologies as well as open standards.
- Led strategic partnership and sponsorship programs.

## UI ENGINEER: **SMARTY ANTS INC.** SAN RAFAEL, 2012-2013

- Planned, designed and implemented the presentation layer of the company's dashboard, partner dashboards, and website.
- Led pixel-perfect CSS development in support of the back-end engineering team.
- Designed game data visualizations that provided valuable insight to school districts on their students' performance.
- Participated in daily scrum.

## Certification:

Professional Scrum Master I (PSM I) Certification

## Project Management Software:

Jira, Monday, Confluence, Asana, Wrike

## Project Management Proficiencies:

Scrum, Agile, Gantt, Waterfall, Kanban

## Design Software:

Figma, Photoshop, Illustrator, Animate

## Software Development Skills:

UI (Design, Wireframing, Prototyping)

## Software Languages:

HTML5, CSS3, Javascript, LAMP

## Office Software:

Microsoft Word, Excel, Google Suite (Admin, Advanced User)

Distinctive problem-solving and project management skills, including experience executing complex strategic and operational initiatives. Strong track record of shipping quality hardware and software products on-time in Agile environments. Effective oral and written communication skills with technical and non-technical stakeholders. Solid ability to identify and mitigate risk for senior business leadership. Collaborate cross-functionally with various disciplines - engineering, marketing, product management, design, UX research and QA. Extensive experience with rapid prototyping.
